

To support our endowment funds, we are excited to launch a Match Fund programme of £1 million pounds.

We are offering philanthropists the opportunity to set up a fund, while we match every pound donated with another pound. This can be a fund for a cause close to the donor's heart.

The minimum needed to for an investment fund is £25,000 but with our match campaign, this means you can leave a legacy for your community for as little as £12,500. MK Community Foundation will match the rest.

A total of £1 million will be available for match and once matched could produce an annual additional grant pot of approximately £80,000 per year.

If you are interested in finding out more about this exciting opportunity, please contact Ranjit Singh or June Oldroyd, Philanthropy Directors.

The population of Milton Keynes is set to grow to 500,000 by 2050. To meet the demands of this fast-expanding population, it is essential that we continue to grow and sustain funding for community groups and charities in the city.

MK Community Foundation is a philanthropic, place-based funder that supports the local voluntary, community, and cultural sectors throughout the city. Our grant programmes provide around £1.5 million in direct funding and a further £1 million in rent subsidies a year.

The primary way in which we support the sector is through grants from our invested endowment funds. We invest endowment donations with the Churches, Charities and Local Authorities Investment Fund and use the proceeds of the investment for grants throughout the city.

This is a sustainable way of providing support to the community of Milton Keynes and ensures a thriving and vibrant community for decades to come.
